### FURNACE AND FILTER

Are Suggested by Doctor Ogden In His Report.

#### MORE SEWERS ARE NEEDED

The Health of the City Can Only Be Maintained by Improvements—Consumption Was the Chief Destroyer—Not Many Deaths From Diphtheria—Typhoid a Fatal Visitor.

Before the board of health convened last evening Member Huston objected very strongly to an item published in a down town sheet in which he was referred to as the rooster of the board. He said: "It was a dirty insulting fling. Some day I am going to get the reporters by the neck and break them in two if they don't let me alone. It was a lie. Only a lack of news causes a paper to publish such stuff as that. That was a very lying, scurrilous article about a man." Then everybody smiled.

When the board convened at 8:10 Members Gilbert, Kauffman, George, Huston and Andrews were present. Mr. Huston, presumably to even matters for being called a rooster, moved the board go into executive session, and it did. The reporters fled out, and for once the thoughts of Mr. Huston were allowed to flow undisturbed.

Finance committee ordered paid the following bills: J. H. Burgess, \$50; C. B. Ogden, \$25; C. T. Larkins, 75 cents; J. H. Simms, \$6.50. The old printing bill was revised, and \$37.70 placed on the pay roll.

The report of the health officer for the month was as follows: Births—males, 25; females, 16; deaths—males, 9; females, 8. One hundred and fifteen cases of measles, two of typhoid fever and one of diphtheritic croup were reported. The report of the sanitary policeman showed he had instructed and carded 115 cases of measles and four of typhoid fever, beside burying six dead animals.

The annual report of the health officer for the year ending Feb. 28 was read and referred to council.

The plumbing board of examiners caused a discussion, but it was decided to wait until a case now pending in Columbus to settle the constitutionality of the law was decided. The clerk was instructed to notify the sewer commissioners to extend the Robinson street sewer along Elm street to Pennsylvania avenue.

Dr. Ogden called attention to the fact that the schools should be furnished with pure water, and suggested that tanks should be placed in every school house. Mr. Kauffman said the only thing the board could do was to recommend it. J. H. Burgess was given a day off, and the board adjourned.

The next meeting will be the farewell appearance of Huston and Mr. Chambers, as their terms expire and they will not serve again.

"The past year has been exceedingly unhealthy," says Doctor Ogden's report. "We have had almost an epidemic of diphtheria and numerous cases of typhoid fever. There has been a total of 163 deaths, 15 more than during the preceding year. As every precaution was taken to prevent the spread of disease we can account for this increase only by climatic conditions. The number of births has been 307. As usual the death list is headed by consumption which this year claimed 27 victims.

"Our record shows that 79 cases of diphtheria were reported, but the number of deaths was only 12. When comparing with other towns we find we have been fortunate. We used strict measures, and endeavored to prevent as far as possible the spread of the disease. We found the greater number of cases located in the hill district, the territory covered by sewer district No. 2 being particularly unfortunate.

"Typhoid fever has been with us to a large extent, 43 cases having been reported. Of this number 12 were fatal. Typhoid fever was more fatal than diphtheria. We have tried to keep the city in as good sanitary condition as possible so as to keep down fever. The Ohio river, our source of water supply, has been at a high stage several times, thus making the water even more impure than usual. We cannot but think impure water, with other causes, has enabled typhoid fever to claim so many.

"Although 26 cases of measles were reported there were no deaths. "We have been fortunate in having only three cases of scarlet fever and four of membranous croup. None of the former were fatal, but all of the latter resulted in death, two proving fatal before they could be reported.

"The school buildings have been inspected, and are in good condition. We

found it necessary to order changes at West End and Grant street buildings.

"We recommend that sewer district No. 2 be provided with a system at once. Tanyard run should be taken as an outlet. This part of the city has been unfortunate in having more than its share of disease, and we think a proper sewer system would greatly improve its sanitary condition. The greater number of contagious diseases during the year have been located in this district. We respectfully urge upon you the necessity of immediate action.

"Garbage is a time worn subject, and each year sees an increasing need of some adequate method for the disposal of garbage and night soil. We believe the time will come when the dumping of refuse into the river will be prohibited. The Ohio has become a mighty sewer. You will admit it is well impossible to keep the city in a good sanitary condition without having some method of disposing of garbage, and unless the city is in good sanitary condition disease cannot be kept down. To provide the necessary means to get rid of refuse some little expenditure will be required, but can we allow this matter to go unattended when at a small cost human lives can be saved? Other cities of the same population have garbage collectors and furnaces. Therefore we suggest that you provide a garbage furnace, and contract with one or more garbage collectors. Then, by governing these with proper regulations, the sanitary condition of the city would be improved.

"Our water supply is taken from the river, and not even filtered. We thus get the full benefit of the filth poured into the river by cities above. This is a fact not pleasant to contemplate when taking a drink of water. We suggest that some means be provided for filtering, so that our citizens be not compelled to take filth and disease germs into their systems every time they take a drink of water."

"During the year 222 notices to clean vaults were issued, 678 to clean up refuse, 34 to make sewer connection. Fifty horses and 89 other dead animals have been disposed of. We suggest that wherever possible the street cleaning department co-operate with us."

By tables attached to the report, it is seen that 170 males and 137 females were born, 305 being white and two colored. Eighty-nine males and 78 females died, all but two being white. Accident caused the death of six, abortion one, heart disease 12, pneumonia 10, and the others were brought about by almost all the ills to which man is heir. March of last year was the most fatal month, claiming 27, but it is closely followed by October with 23. June was the best, only 7 persons having died in that time.

#### IRONDALE WILL VOTE

On the Liquor Question at the Municipal Election.

The question of saloons will be decided by the people of Irondale at the polls next Monday. The better element hold that the presence of so many saloons is a detriment to the town and prevents people who might locate there from coming. The other party say that those who drink will have whisky, and if they can't get it in Irondale they will go to East Liverpool, and it takes money out of the town. The battle has been hard fought, and the outcome is awaited with interest.

#### DRENCHED HIS PARTNER.

Jim Sharp Would Have No Nightmares In Jail.

Jim Sharp, who is doing duty at the jail for a number of days, will be liberated today. Last evening Jim had a German hobo for a fellow roomer. About eleven o'clock when Jim was retiring he heard a peculiar noise, and looking around, found that his friend was trying to stop a freight train in his dreams. This made Jim mad, and he got a bucket of cold water and threw it on his mate, which had the desired effect of stopping all the noise for the night.

#### A NORTH SIDE MUSICAL.

A Good Audience Entertained at the Presbyterian Chapel.

A large audience attended the musical at the North Side chapel last night, and heard a very good program. Elwell's orchestra formed no small part of the entertainment, and the club swinging by Miss Fannie Bertele and Robert Berg was good. Piano solos were given by Miss Josie Orr, Miss Gertie Bahl and Miss Laura Nichols, and a vocal solo by Miss Ruth Hall was well received. The proceeds are for the benefit of the chapel.

#### On the River.

River 8 feet and 6 inches. Passed up—Percy Kelsey, Acorn, Eva Roberts, Down—Bedford. Wharfmaster Pilgrim is now engaged in organizing a party to go south by boat in June.

### LOOKS LIKE A NEW JAIL

But the Contest Will Be Decidedly Close.

#### ALL THE CITIES WILL SUPPORT IT

But Wellsville and Some of the Country Districts Will Vote In the Negative. Western End of the County Is All Right. There Will Be a Good Vote.

As near as the county officers, who are deeply interested in the vote for bonds next Monday can discover, the proposition to build a jail at Lisbon will carry by a small majority.

The only fight made against the plan had adherents in Wellsville, Lisbon and Salem, and the influence exercised there is not enough to swing the remainder of the county. Lisbon, it is predicted, will poll a heavy vote and the majority will be on the right side, while in Salem nothing more than the opposition of the Democrats is anticipated. Nothing much is expected from Wellsville, where the people are so heavily taxed to pay for their city building that they have little use for any movement looking to the improvement of the county. East Palestine and Leetonia will vote for the jail, they think, and smaller towns throughout the county will give their aid. Particularly is this true of East Rochester, Bayard, Moultrie, Homeworth and Kensington, but Salineville will vote against it. This city is depended upon for a large vote favoring the jail.

This issue injected into the election is expected to make the contest of Monday more exciting than the average of municipal contests. While there are local fights of some importance in several towns, the interest shown in the result has been increased by the jail.

#### THE COLLEGE BOYS.

Greeted By a Large Audience They Gave a Good Concert.

The concert given last night by the glee club of Washington and Jefferson college, takes rank among the foremost entertainments of the season, and the large audience heard every number with openly expressed pleasure. So enthusiastic did they at times become that special favorites in the club were compelled to appear again and again. Mr. McDowell, the tenor, possesses a voice of rare sweetness, and his singing last night was the best heard in this city for a long time. Mr. Abt is a perfect master of the mandolin, and his playing elicited the most enthusiastic applause. Mr. McCurdy was the pet of the audience, his rendition of the Parrot making him even more popular. The mandolin, guitar and banjo clubs, made excellent music, and the singing of the glee club showed not only the most careful training, but the presence of talent. Another favorite was Mr. Weigand, the whistler, whose excellent performance was greatly appreciated. The entertainment was a pronounced success, and Professor Harper added a great deal to the reputation he had already made for providing East Liverpool people with good music.

#### TROUBLESOME CRITICS.

They Were Requested to Quit or Get Out.

Almost every attraction at the Grand is attended by a crowd of young men who look upon themselves as dramatic critics, and take occasion to annoy every person who is so unfortunate as to sit near them, by their loud remarks while the performance is in progress. Last evening was no exception, and the same crowd annoyed everybody, until a gentleman in the audience requested them to behave or get out. There was no more criticizing.

#### OFFICERS WERE CALLED

To Quiet a Crowd of Riotous Youngsters on Smoky.

A number of hoodlums are making life weary for Robert Moore, the coal man. At night the gang gather at the river bank and proceed to enjoy themselves by destroying the property of Mr. Moore. They throw stones at the boats, and in other ways make themselves obnoxious. Officers were called last night, but as soon as brass buttons were seen they made themselves scarce. Informations will be made to stop the annoyance.

#### CALIFORNIA'S CARS.

Many People Visited the Exhibit Down Town.

The California fruit cars arrived in the city last night from Wellsville. They make up a wonder and a beauty. The exhibit is owned by the board of trade of Santa Clara county, and is managed by Mr. Leek, who is a thorough man of business. The exhibits attracted much

attention, the cars being visited by a great many people during the day.

#### WHERE YOU WILL VOTE.

Location of Polling Places for Monday's Election.

The election booths and ballot boxes are being carted to their various places day preparatory to Monday's election. Some of the booths are quite old, and a few new ones would not be out of place. Clerk Hanley is placing in each box a bottle of ink, four pens and pen points and six lead pencils. There will be nine voting places, located as follows:

First ward—First precinct, Elliott's shop; Second precinct, Robert Hall's office; Third precinct, Morris building. Second ward—First precinct, city hall, (the township vote will also be cast here); Second precinct, Union planing mill.

Third ward—First precinct, Adam's carriage shop; Second precinct, at McKee's, Sixth street.

Fourth ward—First precinct, West's undertaking rooms; Second precinct, Collins' building.

It is the opinion of many that the vote of Monday will be a large one.

#### MISS ESTELLE KENNEDY.

This Lady, Now at the Grand, Is a Wonder.

Miss Estelle Kennedy, hypnotist, is simply a wonder in her special field. She is the worthy daughter of a talented father, the latter being a general favorite in East Liverpool, and his memory is still green in the minds of many residents who had the pleasure of witnessing his superb performances. Miss Estelle has firmly established herself as a favorite in this city, and has won warm commendation at the hands of the public at large. She is an artist in her line, and is not excelled by any one now upon the stage of action. Miss Kennedy will remain over for Monday night next, at the very earnest invitation of citizens who have become very deeply interested over the secrets of her power. Don't miss seeing her at the Grand tonight.

#### CHESTER NEWS.

The Country Editor Crossed the River to Virginia.

Mrs. John Finley, who has been suffering with fever for some time, is improving.

Tom Abrams, who has been ill for the past three months, is still quite a sick man. There is no change in his condition.

The soliciting committee of the new church are still at work, and so far they have succeeded in raising about \$300. That they will secure the coveted \$400 there is no doubt.

The Sebers family are vacating the Posey property, and are moving into their own house at Middle Run.

The crops of the season seem to be in good shape, especially the early apples and wheat crop. Pears are all lost on account of the recent cold snap.

A number of Chesterites will go to New Cumberland Monday to hear the decision of the county commissioners in the case of the public road about to be cut through the Fontz and Gardner properties. They think it will be a good thing for their town, but they expect some trouble. It will shorten the road to the bridge about a quarter of a mile.

The American Land company is erecting a two story building for E. C. Lakel. It is on a lot 31x16 feet.

#### A SUIT FOR LAND.

Liverpool People Appear In Common Pleas.

LISBON, April 3.—[Special]—Mrs. Emily Mountford entered suit this morning to obtain possession of a piece of land in East Liverpool which Walter Burrows is keeping from her. The land belongs to the plaintiff, and adjoins land owned by J. H. Densmore. Mrs. Mountford also asks \$150 damages.

A suit was filed here today by Bennett Frock against Homer Zimmerman, to recover on a note given by him in Salem a year ago for \$300.

The sale of the Jesse Kepner farm in Hanover township, under vendi expons proceedings, to obtain a part of John R. Martin's judgment, will be made from the court house steps Monday, May 10. The tract contains 23 acres, and is appraised at \$689.

A marriage license was issued to J. M. Walton and Rebecca M. Derringer.

#### Beautiful Millinery.

The handsome display of Easter hats and bonnets at Miss M. A. Farrell's, 146 Fifth street, is the subject of general commendation at the hands of the very best judges, the ladies of East Liverpool and vicinity, and they have decided that the designs and patterns are "just too lovely for anything."

—Doctor Norris and George Parks went fishing today in Beaver creek.

### SENIOR CLASS TO REST

Before the Ordeal of Commencement Exercises.

#### BOARD GAVE THEM TWO WEEKS

High School Teachers Will Decide Upon the Date—Committee on New Buildings Will Report at the Next Meeting—A Short Session.

The board of education met last evening in regular session in the central school building, with Mr. Vodrey, Mr. Swan, Doctor Norris, Mr. McClain and Mrs. Watson present. Mrs. Watson opened the session by reading the 143d psalm and offering prayer.

The minutes of the last meeting were adopted. The committee on new buildings said they had a report ready and would present it at the next meeting. Clerk Norris said that several of the janitors had made complaint about the loitering around the different buildings, especially on Sunday. The clerk was ordered to notify the janitors to cause the arrest of any one caught around the buildings, and having no business there.

Mr. McClain made a motion granting the graduating class a vacation of two weeks, beginning next Friday or one week later. The date remains for the high school teachers to decide. The following bills were ordered paid:

Robert Moore, \$131.08; Will Reed, \$1; Eagle Hardware company, 60 cents; W. J. Martin, \$2.20; W. G. Johnston, \$7.50; total, \$142.38.

Mr. McClain moved a committee of two be appointed to draft resolutions in reference to the death of Miss Glidden. Mr. Vodrey, president pro tem, appointed Mr. McClain and Doctor Norris as that committee. They will present them at the next meeting. Mrs. Watson moved they adjourn, and it was carried.

#### Found Their Mascot.

When the Washington and Jefferson college boys lined up at the depot today to take the noon train, they discovered the small colored boy who acts as their mascot was missing. Six of the students started out to find him, but returned without success. He was given up for lost, but just as the train was ready to pull out the lad came running to the platform and jumped aboard, while the students yelled.

#### No Bells on Bicycles.

"At least one-half of the bicycles in the city are not provided with bells," was the remark made by an officer to a reporter this morning. "Last evening I stood at a corner on Fifth street and watched them, and I think I am very near right in my count." If this be true, and the ordinance was enforced, Mayor Gilbert would have his hands full for some time.

#### The Mormons' Meeting.

There were 15 people present at the Mormon meeting, which was held at Fred Webb's house last night. There is less interest shown now than there was at the start. The subject last night was "Repentance." Elder Barlow did most of the talking. Another meeting will be held at the residence of Thomas Davidson tomorrow.

#### All Ready but the Child.

The township trustees today were presented with a lot of slightly damaged shoes by a shoe dealer. They will be distributed among the poor.

They failed to send the child to the Fairmount home yesterday. After all the necessary papers had been made out the mother failed to appear with the child.

#### A Big Day.

Yesterday was a day at the freight station. Sixty-seven cars were handled. The number of loaded cars that came in was 38; number of cars loaded in the sheds 18; on the sidings 11, making a total of 67. It was the largest day of the week. Sewer pipe is now being loaded daily at the station.

#### Ready to Resume.

The rig built to replace that burned on the Davis farm last Sunday will be completed today, and drilling will be resumed at once. The damage was not as great as that placed by the original estimate. If no other accident happens the well will be in during the next few weeks.

#### Activity In the Knoxville Field.

There is great activity in the Knoxville oil field, below Wellsville, and a number of wells will be put down this week. Several carloads of drilling tools arrived at Hammondsville during the week, and were at once sent over the hills to the oil territory.

East Palestine and Leetonia will vote for the jail, they think, and smaller towns throughout the county will give their aid. Particularly is this true of East Rochester, Bayard, Moultrie, Homeworth and Kensington, but Salineville will vote against it. This city is depended upon for a large vote favoring the jail.

This issue injected into the election is expected to make the contest of Monday more exciting than the average of municipal contests. While there are local fights of some importance in several towns, the interest shown in the result has been increased by the jail.

### THE COLLEGE BOYS.

Greeted By a Large Audience They Gave a Good Concert.

The concert given last night by the glee club of Washington and Jefferson college, takes rank among the foremost entertainments of the season, and the large audience heard every number with openly expressed pleasure. So enthusiastic did they at times become that special favorites in the club were compelled to appear again and again. Mr. McDowell, the tenor, possesses a voice of rare sweetness, and his singing last night was the best heard in this city for a long time. Mr. Abt is a perfect master of the mandolin, and his playing elicited the most enthusiastic applause. Mr. McCurdy was the pet of the audience, his rendition of the Parrot making him even more popular. The mandolin, guitar and banjo clubs, made excellent music, and the singing of the glee club showed not only the most careful training, but the presence of talent. Another favorite was Mr. Weigand, the whistler, whose excellent performance was greatly appreciated. The entertainment was a pronounced success, and Professor Harper added a great deal to the reputation he had already made for providing East Liverpool people with good music.

### TROUBLESOME CRITICS.

They Were Requested to Quit or Get Out.

Almost every attraction at the Grand is attended by a crowd of young men who look upon themselves as dramatic critics, and take occasion to annoy every person who is so unfortunate as to sit near them, by their loud remarks while the performance is in progress. Last evening was no exception, and the same crowd annoyed everybody, until a gentleman in the audience requested them to behave or get out. There was no more criticizing.

### OFFICERS WERE CALLED

To Quiet a Crowd of Riotous Youngsters on Smoky.

A number of hoodlums are making life weary for Robert Moore, the coal man. At night the gang gather at the river bank and proceed to enjoy themselves by destroying the property of Mr. Moore. They throw stones at the boats, and in other ways make themselves obnoxious. Officers were called last night, but as soon as brass buttons were seen they made themselves scarce. Informations will be made to stop the annoyance.

### CALIFORNIA'S CARS.

Many People Visited the Exhibit Down Town.

The California fruit cars arrived in the city last night from Wellsville. They make up a wonder and a beauty. The exhibit is owned by the board of trade of Santa Clara county, and is managed by Mr. Leek, who is a thorough man of business. The exhibits attracted much

attention, the cars being visited by a great many people during the day.

### WHERE YOU WILL VOTE.

Location of Polling Places for Monday's Election.

The election booths and ballot boxes are being carted to their various places day preparatory to Monday's election. Some of the booths are quite old, and a few new ones would not be out of place. Clerk Hanley is placing in each box a bottle of ink, four pens and pen points and six lead pencils. There will be nine voting places, located as follows:

First ward—First precinct, Elliott's shop; Second precinct, Robert Hall's office; Third precinct, Morris building. Second ward—First precinct, city hall, (the township vote will also be cast here); Second precinct, Union planing mill.

Third ward—First precinct, Adam's carriage shop; Second precinct, at McKee's, Sixth street. Fourth ward—First precinct, West's undertaking rooms; Second precinct, Collins' building.

It is the opinion of many that the vote of Monday will be a large one.

### MISS ESTELLE KENNEDY.

This Lady, Now at the Grand, Is a Wonder.

Miss Estelle Kennedy, hypnotist, is simply a wonder in her special field. She is the worthy daughter of a talented father, the latter being a general favorite in East Liverpool, and his memory is still green in the minds of many residents who had the pleasure of witnessing his superb performances. Miss Estelle has firmly established herself as a favorite in this city, and has won warm commendation at the hands of the public at large. She is an artist in her line, and is not excelled by any one now upon the stage of action. Miss Kennedy will remain over for Monday night next, at the very earnest invitation of citizens who have become very deeply interested over the secrets of her power. Don't miss seeing her at the Grand tonight.

### CHESTER NEWS.

The Country Editor Crossed the River to Virginia.

Mrs. John Finley, who has been suffering with fever for some time, is improving. Tom Abrams, who has been ill for the past three months, is still quite a sick man. There is no change in his condition.

The soliciting committee of the new church are still at work, and so far they have succeeded in raising about \$300. That they will secure the coveted \$400 there is no doubt.

The Sebers family are vacating the Posey property, and are moving into their own house at Middle Run.

The crops of the season seem to be in good shape, especially the early apples and wheat crop. Pears are all lost on account of the recent cold snap.

A number of Chesterites will go to New Cumberland Monday to hear the decision of the county commissioners in the case of the public road about to be cut through the Foutz and Gardner properties. They think it will be a good thing for their town, but they expect some trouble. It will shorten the road to the bridge about a quarter of a mile.

### A SUIT FOR LAND.

Liverpool People Appear In Common Pleas.

LISBON, April 3.—[Special]—Mrs. Emily Mountford entered suit this morning to obtain possession of a piece of land in East Liverpool which Walter Burrows is keeping from her. The land belongs to the plaintiff, and adjoins land owned by J. H. Densmore. Mrs. Mountford also asks \$150 damages.

A suit was filed here today by Bennet Frook against Homer Zimmerman, to recover on a note given by him in Salem a year ago for \$300.

The sale of the Jesse Kepner farm in Hanover township, under vendi exponas proceedings, to obtain a part of John R. Martin's judgment, will be made from the court house steps Monday, May 10. The tract contains 23 acres, and is appraised at \$689.

A marriage license was issued to J. M. Walton and Rebecca M. Derringer.

### Beautiful Millinery.

The handsome display of Easter hats and bonnets at Miss M. A. Farrell's, 146 Fifth street, is the subject of general commendation at the hands of the very best judges, the ladies of East Liverpool and vicinity, and they have decided that the designs and patterns are "just too lovely for anything."

## SENIOR CLASS TO REST

Before the Ordeal of Commencement Exercises.

### BOARD GAVE THEM TWO WEEKS

High School Teachers Will Decide Upon the Date—Committee on New Buildings Will Report at the Next Meeting—A Short Session.

The board of education met last evening in regular session in the central school building, with Mr. Vodrey, Mr. Swan, Doctor Norris, Mr. McClain and Mrs. Watson present. Mrs. Watson opened the session by reading the 143d psalm and offering prayer.

The minutes of the last meeting were adopted. The committee on new buildings said they had a report ready and would present it at the next meeting. Clerk Norris said that several of the janitors had made complaint about the loitering around the different buildings, especially on Sunday. The clerk was ordered to notify the janitors to cause the arrest of any one caught around the buildings, and having no business there.

Mr. McClain made a motion granting the graduating class a vacation of two weeks, beginning next Friday or one week later. The date remains for the high school teachers to decide. The following bills were ordered paid: Robert Moore, \$131.08; Will Reed, \$1; Eagle Hardware company, 60 cents; W. J. Martin, \$2.20; W. G. Johnston, \$7.50; total, \$142.38.

Mr. McClain moved a committee of two be appointed to draft resolutions in reference to the death of Miss Glidden. Mr. Vodrey, president pro tem, appointed Mr. McClain and Doctor Norris as that committee. They will present them at the next meeting. Mrs. Watson moved they adjourn, and it was carried.

### Found Their Mascot.

When the Washington and Jefferson college boys lined up at the depot today to take the noon train, they discovered the small colored boy who acts as their mascot was missing. Six of the students started out to find him, but returned without success. He was given up for lost, but just as the train was ready to pull out the lad came running to the platform and jumped aboard, while the students yelled.

### No Bells on Bicycles.

"At least one-half of the bicycles in the city are not provided with bells," was the remark made by an officer to a reporter this morning. "Last evening I stood at a corner on Fifth street and watched them, and I think I am very near right in my count." If this be true, and the ordinance was enforced, Mayor Gilbert would have his hands full for some time.

### The Mormons' Meeting.

There were 15 people present at the Mormon meeting, which was held at Fred Webb's house last night. There is less interest shown now than there was at the start. The subject last night was "Repentance." Elder Barlow did most of the talking. Another meeting will be held at the residence of Thomas Davidson tomorrow.

### All Ready but the Child.

The township trustees today were presented with a lot of slightly damaged shoes by a shoe dealer. They will be distributed among the poor.

They failed to send the child to the Fairmont home yesterday. After all the necessary papers had been made out the mother failed to appear with the child.

### A Big Day.

Yesterday was a day at the freight station. Sixty-seven cars were handled. The number of loaded cars that came in was 38; number of cars loaded in the sheds 18; on the sidings 11, making a total of 67. It was the largest day of the week. Sewer pipe is now being loaded daily at the station.

### Ready to Resume.

The rig built to replace that burned on the Davis farm last Sunday will be completed today, and drilling will be resumed at once. The damage was not as great as that placed by the original estimate. If no other accident happens the well will be in during the next few weeks.

### Activity In the Knoxville Field.

There is great activity in the Knoxville oil field, below Wellsville, and a number of wells will be put down this week. Several carloads of drilling tools arrived at Hammondsville during the week, and were at once sent over the hills to the oil territory.

The silver men of Wyoming are happy now that the state is covered with a foot or more of snow.

Stuebenville will be stuck up for a month or two. The Association of Ohio Bill Posters will meet there in May.

General Rivera was probably shot. Weyler could never display so much humanity as to give him anything approaching an impartial trial.

There is no question about the ultimate success of the Dingley bill in the senate, but the people are by no means anxious for that august body to postpone prosperity by too much talking.

Take your good judgment with you when you go to the polls next Monday, and there will be a noticeable improvement in East Liverpool's government before another municipal election rolls around.

Railroad men have been sharpening up their old knives this week, and if a better prospect for legal pooling does not soon appear there will follow such a slashing of rates as will make the average shipper smile his sweetest.

The deadlock in the Kentucky legislature because no agreement regarding the selection of a senator can be reached, is costing the taxpayers of the dark and bloody ground about \$1,000 a day, and serving as a good argument for filling that office by a direct vote of the people.

They say that Douglass, of the Salem News, never passes the postoffice in that ancient town without thinking of the time when in 1900 he will stand at the stamp window, and deal out cordiality and postage to all who apply. May his sweet dream be realized. He deserves it.

New Jersey believes in home protection. By a law recently passed residents of the state can marry without a license, but those who have made Camden, Atlantic City and other places something like the Gretna Green of old must go down in their pockets for an unusually large fee.

The death of the United Press leaves no room for doubting the position of American newspaper interests toward trusts. Co-operation has been found so successful that it will be a long time, indeed, before independent capital will repeat the experiment which resulted so disastrously for those behind the defunct organization.

The News Review takes off its hat to the public, and begs pardon for the issue of last night. There is, however, a good excuse. The rush of advertising came so late in the day that it was impossible to provide for it other than through the medium of the news col-

umns. It will not occur again, and, if the advertising of the city will warrant it, not many months will go by until the News Review will each evening reach its readers just double its present size.

## ROOM FOR REFORM.

There is certainly room for reform when a city which has attained the importance of East Liverpool will publish its clerk's report in an obscure weekly and weakly paper. That report is public business, and the law under which it is printed never intended that it should be given out as patronage, but rather that all the people should know how their money had been expended. The Tribune does not reach the people of this city. It has little if any of a paid circulation. Scores of people who receive it every week never think of scanning its pages. The city does not waste its money in paying for any publication in the Tribune. Better throw that money in the fire. The people could at least enjoy the unique sight of seeing it burn.

## McKINLEY TO CRUISE.

He Will Likely Take a Recreative Trip on the Dolphin.

WASHINGTON, April 3.—President McKinley has in contemplation a brief vacation from his official duties. The month in the White House has been a trying one, and while not in any way imposed, he feels that a few days rest will benefit him greatly. Nothing has been determined yet it is probable that he will avail himself of the presence here of the dispatch boat Dolphin and go down the Potomac river for a couple of days about the middle of next week. He prefers this means of diversion rather than going to a public resort.

## NO SUCCESSOR TO BLACKBURN.

Situation in Kentucky Looks Like a Permanent Deadlock.

FRANKFORT, Ky., April 3.—The Republican and Democratic steering committees have reached an agreement by which only a formal ballot is to be taken for senator today and no effort will be made to elect. No interesting developments are therefore expected in the contest before next week. The situation now looks more like a permanent deadlock, ending in no election, than that it has at any time during the session.

## Miners Refuse the Rate.

MOSONGAMELA CITY, Pa., April 3.—Notices were posted in the Black Diamond, Old Eagle and Mongah mines, saying that a 2-cent rate for mining would go into effect. The miners at Black Diamond refused to accept and, as a result, the mines are idle. Mongah and Old Eagle men are still working, but it is probable that they will also refuse to accept the reduction.

## A Tragedy in Kentucky.

HYDEN, Ky., April 3.—Tom Oglethorpe, a prosperous farmer, accused his wife of having been intimate with Henry Schneider, a farm hand. They quarreled, and Oglethorpe's wife left him. Oglethorpe then killed Schneider and himself.

## Hemorrhage Killed Him.

PEQUA, O., April 3.—Thomas Quigley, an employee of the stove works, while on an errand up street, was taken with a hemorrhage of the lungs and expired in a few minutes. He was 36 years old and came here from Cincinnati six years ago.

## 10,000 Men May Strike.

MILWAUKEE, April 2.—The 10,000 union brewery employees in Milwaukee have submitted a demand for eight hours work a day for ten hours pay. Should no agreement be reached by Monday a strike probably will be ordered.

## Desperate Fight With Outlaws.

ARMORE, I. T., April 3.—A posse has had a desperate fight with outlaws. The desperadoes are seven in number and three of them are known to have been wounded in the engagement. None of the officers were injured.

## Harrington Is Restored.

WASHINGTON, April 3.—Mr. D. W. Harrington, whose resignation as chief of division of accounts, treasury department, was required by Secretary Carlisle early in the last administration, has been restored to his position.

## Rev. Alexander Proudfoot Dead.

SPRINGFIELD, O., April 3.—Rev. Alexander Proudfoot, pastor of the First Presbyterian church here, died of heart trouble. He was for many years pastor of the Second Presbyterian church in Baltimore.

## Knocking Overtime.

## PROPHET HAS A PLAN

He Would Build the Jail Without Taxation.

## LET THE COUNTY OFFICERS DO IT

Appoint One Man to Receive the Money They Are Paid In Fees, Disburse to Each a Fair Salary, and Make a Building Fund With the Remainder.

EDITOR NEWS REVIEW.—I'm in favor of building the new jail at Lisbon. Have I been converted? Yes, verily, and my conversion has been effected in an instant, with scarcely a moment's argument. Will I name the modus operandi of the cause which produced such a wonderful effect upon me? Yes, verily, I will, and that with exceeding great joy. It is in this wise. Pause, ponder, listen, in breathless awe and dense silence, as I am about to drop a bomb whose explosive qualities will put in the shade all the dynamite bombs exploded in Columbiana county for the past 20 years, and will cause such a shaking up among the dry bones of rotten jobbery and political trickery as has not been known since the bones rattled in that great valley of bones of ancient days. Do I want the taxpayers of the county, the laborer, the mechanic, the potter in the shop, the toiler in the glasshouse, the farmer in the field, the blacksmith at the anvil; do I want these and other wage-earners, those who earn their bread by the sweat of their face, to pay for the erection of this new jail. Nay, verily I do not. What then will I do? How will I erect this palace of content for the care and comfort of the criminal and law-breaker? Don't be mystified. Don't think that I am visionary. Don't imagine that I cannot produce the necessary filthy lucre. Who makes the law? You tell me that the voters do it. Well, I'll appeal to the voters of the county and of the state. Let us legislate. Let us so legislate that each officeholder in the county shall turn in his fees to the proper official in Columbiana county; out of those fees pay the official who turns them in a fair salary, fixed by the law, and let the remainder, a mighty snug sum, be placed in a contingent fund, with the distinct understanding that the first money taken from this fund shall be used in the erection of our new jail, now so much desired by the ringsters of the county. No man who is acquainted with the county office seekers, and who knows the methods they pursue, will doubt for a moment that they—each and every one of them—will hail this proposition with delight. They'll tumble over each other with agility and scramble in hot chase to see who will be the very first to, in soulful glow, cast the nice fat fees into the capacious maw prepared for it by the honest voters and toilers of the county. Yea, verily. And the first in the race will no doubt be the individual known as the P. J., whose residence is at the county seat, and who lately left his office in disgust, because the voters so desired, or rather because of the limitation act; and his nice act, in open convention assembled, where he was acting as the cut and dried chairman of the ringsters, was to refuse to listen to an appeal from his decision, made by myself, when he deliberately decided my amendment lost, despite the fact that every man present knew that it carried by four votes; and this action of his was premeditated and deliberate, in order that the ringsters might continue in power and be able to put pets in office at a salary of between \$10,000 and \$11,000 per year, when no business man in the land would pay them more than one-fifth of the sum for their services. Yes, Mr. Editor, give me the sum saved from these fat fees, after an honest and earned salary has been paid out to Columbiana county officials, and I'll build that new jail in short order, and without a penny of taxation being made. Hear me now, and you'll hear me again; for, just as sure as you're alive, the people, the common people, the people whom Abraham Lincoln termed the bone and sinew of the land, the bulwark and safeguard of the nation, are being aroused to the iniquity being practiced upon them, by and through pioushouse politicians, in voting to themselves fat fees and heavy salaries, coming directly out of the pockets of the mechanics, laborers and toilers of the county. Down with such humbugs. Let intelligent voters toss them from office. Let honor and justice rule. Turn on the light.

## Ultimatum to Spain.

WASHINGTON, April 3.—The closing chapter of the correspondence which has passed between the United States and Spain respecting the prohibition of tobacco exports from Cuba, as shown in the foreign relations just published, will be very comforting to the tobacco importers. Secretary Olney had been complaining, without much avail, of the detention in Cuba of tobacco that had been contracted for or was even in the possession of would-be exporters before the decree was issued suspending imports. Finally came this ultimatum, on Feb. 12 last, in a note to Minister Taylor at Madrid, signed by Secretary Olney.

There being now no reason to believe that the promised relief will be granted, you are instructed to inform the Spanish minister for foreign affairs that his government will be held responsible for the indemnification of citizens of the United States in every instance, whether heretofore specifically presented or not, in which tobacco owned by such citizens or contracted for by them prior to the promulgation of the order of May 18, 1896, prohibiting exportation of tobacco, has been detained under that order.

## ONE CLAUSE NOW A LAW

Gage to Enforce Retroactive Tariff Feature Today.

CLAIMS HE HAS THE AUTHORITY.

He and Assistant Secretary Howell Construct Section 249 of the Revised Statutes as Giving the Right For Such Action—Will Restrict Imports.

WASHINGTON, April 3.—Secretary Gage has announced that he has decided to comply with the requirements of section 27 of the pending tariff bill providing for the retention of samples of merchandise imported under orders given subsequent to April 1, and which were not purchased and directed by the owner to be shipped for import into the United States prior to April 1.

This action, however, will be taken under section 249 of the revised statutes, which authorizes the secretary to exercise superintendence over the collection of customs duties. It is the opinion of Secretary Gage and the new assistant secretary, Mr. Howell, that no insurmountable difficulties will be encountered in the administration of this feature of the tariff bill.

There can be no difficulty, it is said, as to articles which are to pay a specific duty, and as the whole tariff bill was framed with a general view to specific rather than ad valorem duties, a large proportion of the dutiable articles will be disposed of without the necessity of retaining samples.

In some special cases where the retention of samples would obviously work hardship to the importers, such as a large and miscellaneous invoice of furniture it is thought that this requirement may be waived on a clear stipulation as to character and value.

The new regulations probably will be promulgated today. The Republican members of the senate committee on finance are continuing their work day and night on the tariff bill with the intention of reporting it to the senate at the earliest possible day. They are not yet prepared to give out any of the results of their investigations, and say when approached upon the subject that they have not as yet reached any conclusions upon any schedules of the bill. There is, however, a well defined impression about the senate that the bill will be generally remodeled and the rates considerably reduced in many of the schedules. A member of the committee is quoted by another senator as authority for the specific statement that carpet duties would be cut. There is also general belief among western senators that there will be material changes in the rates on wools, especially on those of the third class.

A strong effort will be made to have naphthalene black placed upon the dutiable list. Representatives of other wool blacks are now in the city, and have brought the matter to the attention of the committee.

They call attention to the fact that this product is not an alizarin, and say that it is unjustly so classified. The ways and means committee of the house originally agreed to leave it out of the dutiable list and place it with other coal tar dyes, but changed their minds the last day the bill was before the house.

The incident has brought out a vigorous protest from persons interested in other blacks, who say that the naphthalene patent is owned by a foreign house, that it will give to this establishment a monopoly and will deprive the government of \$500,000 revenue annually.

Among other suggestions which have been urged upon the committee are the following: A return to the Wilson law of 8 cents a pound duty on hops instead of the 15 cents provided by the Dingley bill. It is claimed that the proposed increase will be an injury rather than a benefit to the producer and a hardship to the consumer.

A uniform rate on all imported tobacco suitable for cigar purposes. It is asserted that the enactment of the Dingley rates into law would result in throwing 300,000 cigarmakers out of employment.

A reduction of the rate on gold leaf, silver leaf, aluminum leaf and composition Dutch metal.

A reduction on the rate of 10 cents a pound on gum chicle, the basis of pure chewing gum. Some of the manufacturers urge that this article should be made free because, it is, they say, "the poor man's luxury."

There is also much contention about the lumber schedule as there is about many other schedules. The American lumbermen interested in Canadian forest appear to be especially concerned over the Dingley rates. The committee is not receiving any verbal statements, except from senators, but it is giving close attention to typewritten presentations of fact and argument. Few promises are being made even to senators. There is, therefore, no basis for any, but the most general prediction as to the fate of the bill at the hands of the Republican senators.

## ULTIMATUM TO SPAIN.

Olney's Strong Talk Concerning Abuse of American Tobacco Importers.

There being now no reason to believe that the promised relief will be granted, you are instructed to inform the Spanish minister for foreign affairs that his government will be held responsible for the indemnification of citizens of the United States in every instance, whether heretofore specifically presented or not, in which tobacco owned by such citizens or contracted for by them prior to the promulgation of the order of May 18, 1896, prohibiting exportation of tobacco, has been detained under that order.

## ROOM FOR REFORM.

There is certainly room for reform when a city which has attained the importance of East Liverpool will publish its clerk's report in an obscure weekly and weakly paper. That report is public business, and the law under which it is printed never intended that it should be given out as patronage, but rather that all the people should know how their money had been expended. The Tribune does not reach the people of this city. It has little if any of a paid circulation. Scores of people who read it every week never think of scanning its pages. The city does not waste its money in paying for any publication in the Tribune. Better throw that money in the fire. The people could at least enjoy the unique sight of seeing it burn.

## M'KINLEY TO CRUISE.

He Will Likely Take a Recreative Trip on the Dolphin.

WASHINGTON, April 3.—President McKinley has in contemplation a brief vacation from his official duties. The month in the White House has been a trying one, and while not in any way imposed, he feels that a few days rest will benefit him greatly. Nothing has been determined yet it is probable that he will avail himself of the presence here of the dispatch boat Dolphin and go down the Potomac river for a couple of days about the middle of next week. He prefers this means of diversion rather than going to a public resort.

## NO SUCCESSOR TO BLACKBURN.

Situation in Kentucky Looks Like a Permanent Deadlock.

FRANKFORT, Ky., April 3.—The Republican and Democratic steering committees have reached an agreement by which only a formal ballot is to be taken for senator today and no effort will be made to elect. No interesting developments are therefore expected in the contest before next week. The situation now looks more like a permanent deadlock, ending in no election, than it has at any time during the session.

## Miners Refuse the Rate.

MONONGAHELA CITY, Pa., April 3.—Notices were sent in the Black Diamond, Old Eagle and Mongah mines, saying that a 2-cent rate for mining would go into effect. The miners at Black Diamond refused to accept and, as a result, the mines are idle. Mongah and Old Eagle men are still working, but it is probable that they will also refuse to accept the reduction.

## A Tragedy in Kentucky.

HYDEN, Ky., April 3.—Tom Oglethorpe, a prosperous farmer, accused his wife of having been intimate with Henry Schneider, a farm hand. They quarreled, and Oglethorpe's wife left him. Oglethorpe then killed Schneider and himself.

## Hemorrhage Killed Him.

POKA, O., April 3.—Thomas Quigley, an employe of the stove works, while on an errand up street, was taken with a hemorrhage of the lungs and expired in a few minutes. He was 36 years old and came here from Cincinnati six years ago.

## 10,000 Men May Strike.

MILWAUKEE, April 3.—The 10,000 union brewery employes in Milwaukee have submitted a demand for eight hours work a day for ten hours' pay. Should no agreement be reached by Monday a strike probably will be ordered.

## Desperate Fight With Outlaws.

ARMORE, I. T., April 3.—A posse has had a desperate fight with outlaws. The desperadoes are seven in number and three of them are known to have been wounded in the engagement. None of the officers were injured.

## Harrington Is Restored.

WASHINGTON, April 3.—Mr. D. W. Harrington, whose resignation as chief of division of accounts, treasury department, was required by Secretary Carlisle early in the last administration, has been restored to his position.

# PROPHET HAS A PLAN

He Would Build the Jail Without Taxation.

## LET THE COUNTY OFFICERS DO IT

Appoint One Man to Receive the Money They Are Paid In Fees, Dispense to Each a Fair Salary, and Make a Building Fund With the Remainder.

EDITOR NEWS REVIEW.—I'm in favor of building the new jail at Lisbon. Have I been converted? Yes, verily, and my conversion has been effected in an instant, with scarcely a moment's argument. Will I name the modus operandi of the cause which produced such a wonderful effect upon me? Yes, verily, I will, and that with exceeding great joy. It is in this wise. Pause, ponder, listen, in breathless awe and dense silence, as I am about to drop a bomb whose explosive qualities will put in the shade all the dynamite bombs exploded in Columbiana county for the past 30 years, and will cause such a shaking up among the dry bones of rotten jobbery and political trickery as has not been known since the bones rattled in that great valley of bones of ancient days. Do I want the taxpayers of the county, the laborer, the mechanic, the potter in the shop, the toiler in the glasshouse, the farmer in the field, the blacksmith at the anvil; do I want these and other wage-earners, those who earn their bread by the sweat of their face, to pay for the erection of this new jail. Nay, verily I do not. What then will I do? How will I erect this palace of content for the care and comfort of the criminal and law-breaker? Don't be mystified. Don't think that I am visionary. Don't imagine that I cannot produce the necessary filthy lucre. Who makes the law? You tell me that the voters do it. Well, I'll appeal to the voters of the county and of the state. Let us legislate. Let us so legislate that each officeholder in the county shall turn in his fees to the proper official in Columbiana county; out of those fees pay the official who turns them in a fair salary, fixed by the law, and let the remainder, a mighty snug sum, be placed in a contingent fund, with the distinct understanding that the first money taken from this fund shall be used in the erection of our new jail, now so much desired by the ringsters of the county. No man who is acquainted with the county office seekers, and who knows the methods they pursue, will doubt for a moment that they—each and every one of them—will hail this proposition with delight. They'll tumble over each other with agility and scramble in hot chase to see who will be the very first to, in soulful glow, cast the nice fat fees into the capacious maw prepared for it by the honest voters and toilers of the county. Yea, verily. And the first in the race will no doubt be the individual known as the P. J., whose residence is at the county seat, and who lately left his office in disgust, because the voters so desired, or rather because of the limitation act; and his nice act, in open convention assembled, where he was acting as the cut and dried chairman of the ringsters, was to refuse to listen to an appeal from his decision, made by myself, when he deliberately decided my amendment lost, despite the fact that every man present knew that it carried by four votes; and this action of his was premeditated and deliberate, in order that the ringsters might continue in power and be able to put pots in office at a salary of between \$10,000 and \$11,000 per year, when no business man in the land would pay them more than one-fifth of the sum for their services.

Yes, Mr. Editor, give me the sum saved from these fat fees, after an honest and earned salary has been paid out to Columbiana county officials, and I'll build that new jail in short order, and without a penny of taxation being made. Hear me now, and you'll hear me again; for, just as sure as you're alive, the people, the common people, the people whom Abraham Lincoln termed the bone and sinew of the land, the bulwark and safeguard of the nation, are being aroused to the inquiry being practiced upon them, by and through pothouse politicians, in voting to themselves fat fees and heavy salaries, coming directly out of the pockets of the mechanics, laborers and toilers of the county. Down with such humbugs. Let intelligent voters toss them from office. Let honor and justice rule. Turn on the light.

Gage to Enforce Retroactive Tariff Feature Today.

## CLAIMS HE HAS THE AUTHORITY.

He and Assistant Secretary Howell Construct Section 249 of the Revised Statutes as Giving the Right For Such Action—Will Restrict Imports.

WASHINGTON, April 3.—Secretary Gage has announced that he has decided to comply with the requirements of section 249 of the pending tariff bill providing for the retention of samples of merchandise imported under orders given subsequent to April 1, and which were not purchased and directed by the owner to be shipped for import into the United States prior to April 1.

This action, however, will be taken under section 249 of the revised statutes, which authorizes the secretary to exercise superintendence over the collection of customs duties. It is the opinion of Secretary Gage and the new assistant secretary, Mr. Howell, that no insurmountable difficulties will be encountered in the administration of this feature of the tariff bill.

There can be no difficulty, it is said, as to articles which are to pay a specific duty, and as the whole tariff bill was framed with a general view to specific rather than ad valorem duties, a large proportion of the dutiable articles will be disposed of without the necessity of retaining samples.

In some special cases where the retention of samples would obviously work hardship to the importers, such as a large and miscellaneous invoice of furniture it is thought that this requirement may be waived on a clear stipulation as to character and value.

The new regulations probably will be promulgated today.

The Republican members of the senate committee on finance are continuing their work day and night on the tariff bill with the intention of reporting it to the senate at the earliest possible day. They are not yet prepared to give out any of the results of their investigations, and say when approached upon the subject that they have not as yet reached any conclusions upon any schedules of the bill. There is, however, a well defined impression about the senate that the bill will be generally remodeled and the rates considerably reduced in many of the schedules.

A member of the committee is quoted by the specific statement that carpet duties would be cut. There is also general belief among western senators that there will be material changes in the rates on wools, especially on those of the third class.

A strong effort will be made to have naphthalene placed upon the dutiable list. Representatives of other wool blacks are now in the city, and have brought the matter to the attention of the committee.

They call attention to the fact that this product is not an alizarin, and say that it is unjustly so classified. The ways and means committee of the house originally agreed to leave it out of the dutiable list and place it with other coal tar dyes, but changed their minds the last day the bill was before the house.

The incident has brought out a vigorous protest from persons interested in other blacks, who say that the naphthalene patent is owned by a foreign house, that it will give to this establishment a monopoly and will deprive the government of \$500,000 revenue annually.

Among other suggestions which have been urged upon the committee are the following: A return to the Wilson law of 8 cents a pound duty on hops instead of the 15 cents provided by the Dingley bill. It is claimed that the proposed increase will be an injury rather than a benefit to the producer and a hardship to the consumer.

A uniform rate on all imported tobacco suitable for cigar purposes. It is asserted that the enactment of the Dingley rates into law would result in throwing 300,000 cigarmakers out of employment.

A reduction of the rate on gold leaf, silver leaf, aluminum leaf and composition or dutch metal.

A reduction on the rate of 10 cents a pound on gum chic, the basis of pure chewing gum. Some of the manufacturers urge that this article should be made free because, it is, they say, "the poor man's luxury."

There is also much contention about the lumber schedule as there is about many other schedules. The American lumbermen are interested in Canadian forests and appear to be especially concerned over the Dingley rates. The committee is not receiving any verbal statements, except from senators, but it is giving close attention to typewritten presentations of fact and argument. Few promises are being made even to senators. There is, therefore, no basis for any, but the most general prediction as to the fate of the bill at the hands of the Republican senators.

## ULTIMATUM TO SPAIN.

Olney's Strong Talk Concerning Abuse of American Tobacco Importers.

WASHINGTON, April 3.—The closing chapter of the correspondence which has passed between the United States and Spain respecting the prohibition of tobacco exports from Cuba, as shown in the foreign relations just published, will be very comforting to the tobacco importers. Secretary Olney had been complaining, without much avail, of the detention in Cuba of tobacco that had been contracted for or was even in the possession of would-be exporters before the decree was issued suspending imports. Finally came this ultimatum, on Feb. 13 last, in a note to Minister Taylor at Madrid, signed by Secretary Olney.

"There being now no reason to believe that the promised relief will be granted, you are instructed to inform the Spanish minister for foreign affairs that his government will be held responsible for the indemnification of citizens of the United States in every instance, whether heretofore specifically presented or not, in which tobacco owned by such citizens or contracted for by them prior to the promulgation of the order of May 16, 1896, prohibiting exportation of tobacco, has been detained under that order."

## FIGHTING THE FLOOD.

Working Day and Night Along the Mississippi.

### TRAILLOADS OF SACKED SAND USED

A Break in the Levee at Austin, Miss., Feared, Which Would Inundate Miles of Fertile Country—The Upper Valley Suffering From High Water.

MEMPHIS, April 3.—The flood situation has once more become acute from a point a few miles above Austin, Miss., as far down as the first break at Paris, Miss., and a crevasse in this line of levees would not be surprising. The pressure on the levee is brought about by the waters of the St. Francis basin, which is here congested between the levees in front of Helena. Several alarming telegrams have been received from near Austin, and the situation is most grave. Boats have been ordered to run on slow bells and engines are constantly strengthening the embankments. A crevasse at Austin would inundate a strip of fertile country in Tunica and Coahoma counties 20 miles wide and 60 miles long. Reports from Helena, Ark., show that the river there is still slowly rising, and it is almost miraculous that the levees at Helena have not been swept away. Thousands of people have been working day and night, and their energies are seemingly exhausted. The Missouri Pacific and Cotton Belt railroads have rushed train load after train load of sacked sand into the beleaguered city and still stand ready to help the Helena people. The railroads have rendered great assistance to the levee guards. The Illinois Central, Missouri Pacific and Cotton Belt railroads have devoted all their great forces to the work of saving the country, and that without charge.

Greenville, in an island and Roseville, Miss., is in water from five to ten feet deep. Thousands of head of cattle are stranded on the levee and many unfortunate refugees sleep there with no covering to protect them from the water-soaked winds of night. Back of Roseville and throughout the lower and middle delta country everything is under water. In many villages no communication with the outside world has been had for several days. The Mississippi above Cairo and the Cumberland and Tennessee rivers will send a great flood into the already filled St. Francis basin, and from Cairo to Memphis it is feared that the deluge will make a high water figure that will be without precedent.

At Memphis the river is steadily falling. The calls for assistance from numerous points along the river are becoming more frequent at headquarters of the relief committee at Memphis.

There are some 15 or 20 white people, principally women and children, in great distress at a point near St. Clair's landing. These people are located in houses, the lower floors of which are overflowed, and they have no food and no means of obtaining it. Arrangements were made to send supplies.

ST. PAUL, April 3.—The Mississippi river here has reached a stage of 16 feet and it is still rising slowly. This is the highest point reached since the great flood of 1881. The residents of the flats had ample warning to save themselves and their property. Between Minneapolis and St. Paul 1,000 families have been made homeless by the flood. They lived on the flats along the river and in the lowlands of West St. Paul. ST. LOUIS, April 3.—The heavy rains of the past two days are having an effect on the streams tributary to the Mississippi and Missouri rivers in Iowa, Illinois, Missouri and Kansas. As a result they are pouring torrents into these rivers and flooding the lowlands through which they flow, causing considerable damage, but, as far as known, no casualties. Mr. Frankfield says the two points where the greatest danger will exist are Hannibal, Mo., and Quincy, Ill.

### THE CRUISE TO HONOLULU.

Secretary Long Denies Any Significance in Philadelphia's Orders.

WASHINGTON, April 3.—Secretary Long is authority for the statement that the orders of the flagship Philadelphia to proceed to Honolulu have no significance. It is said at the state department that the movement has not been requested by it, as would have been the case had the threatened trouble between the Japanese and the Hawaiian government entered into the calculations of the navy department. The Philadelphia is to relieve the Marion, which arrived on the station, relieving the Alert, about two weeks ago.

The reason for the change, is said to be a belief on the part of the secretary of the navy that from the importance of Honolulu commercially and other wise the United States should have a ship of higher class than the Marion stationed there. The Philadelphia, while a modern and powerful cruiser, is said to be out of condition in many respects and it was the intention of the department just as soon as the repairs to the Baltimore were completed to use her to replace the Philadelphia as flagship of the Pacific station and to put the latter craft out of commission and thoroughly renovate her. As for the Marion, it is conjectured that she may be sent onward to Samoa to show the United States flag in that quarter of the globe for the first time in four years.

### Crown Prince of Japan Not Dead.

WASHINGTON, April 3.—The Japanese legation has received a dispatch from the consul general at San Francisco saying that the recent reports of the death of the crown prince of Japan and the succession of Prince Arisugawa as heir apparent were entirely unfounded.

### Two Firebugs Sentenced.

New York, April 3.—Hugh Miller, the firebug convicted 24 hours after arrest, has been sentenced in Brooklyn to 30 years' imprisonment. Adolph Steinberg, another firebug, was sentenced to 10 years' imprisonment.

### Attempt of Incendiaries.

Hazleton, Pa., April 3.—Incendiaries have made an attempt to destroy the No. 8 mine of the Lehigh and Wilkes-Barre Coal company, near here.

### A MONETARY COMMISSION.

Indianapolis Convention Committee in Washington Advocating One.

WASHINGTON, April 3.—Eleven of the 15 members of the executive committee appointed by the Indianapolis monetary convention last January have been in the city for several days.

That convention, composed of business men delegated by the boards of trade of 100 cities, decided to urge a commission to investigate banking and currency laws with a view to their early revision, and the executive committee have decided to establish headquarters here in an endeavor to procure from congress such legislation at this session as will empower the president to appoint a committee to consider the subject before the regular session of congress convenes in December.

### BLOCKED BY FORAKER.

President McKinley Still Wishes to Honor Bellamy Storer—The Senator Asked to Withdraw His Objections. May Rescind Forestry Proclamation.

WASHINGTON, April 3.—Senator Foraker, before leaving for Ohio to spend a few days, had a few minutes' conversation with President McKinley at the White House and left a large bundle of applications for postmasterhips and minor offices. In connection with Senator Foraker's visit there is a revival of the report at the White House that Mr. McKinley is anxious to appoint ex-Congressman Bellamy Storer of Cincinnati to the position of assistant secretary of state if Senator Foraker can be induced to withdraw his opposition. Colonel Rockhill, the present incumbent, desires the mission to the flowery kingdom.

Senator Elkins of West Virginia made an engagement with the president to talk over West Virginia offices next week. Representative Hicks of Pennsylvania introduced four Altoona constituents who want offices and Senator Burrows, ex-Senator Palmer of Michigan, Senator Proctor of Vermont and Representative Bingham of Pennsylvania also saw Mr. McKinley. All the members of the cabinet were present at the meeting. Secretary Sherman, who was unable to attend last Tuesday on account of illness, was present. The cabinet was in session a little over an hour and a half. The only question of public importance discussed was the question of rescinding the order of ex-President Cleveland setting apart 21 forest reservations in the west. This question has engaged the attention of Secretary Bliss for some time. The secretary took to the White House the maps and papers relating to the matter.

The discussion of the forestry question was at times very vigorous, and all the members took part. The outcome was instructions that the national forestry commission be summoned to Washington to talk over their work with the president. It is understood that the sentiment was unanimous that President Cleveland's proclamation was too comprehensive.

The president announced his purpose to act on conservative lines and not to act without more information.

Sylvester Sevel, the newspaper correspondent who was imprisoned in Cuba, saw Mr. McKinley. Between 500 and 600 persons were present at the public reception. They were received in line, and immediately after the reception closed Mr. McKinley went out for his daily walk.

### PLAIN TALK TO GERMANY.

Olney Had a Tilt With the Ambassador Over Samoan Affairs.

WASHINGTON, April 3.—Samoan affairs were much discussed last year between Secretary Olney and Baron Thielmann, the German ambassador here. The volume of foreign relations just published shows that the baron was obliged a year ago to call upon Secretary Olney to pay \$1,267 as the United States' share of maintaining old ex-King Mataafa, and took occasion to speak of the deficiencies in Samoan revenues and to ask the intentions of the United States as to remedial measures.

Secretary Olney paid the money and declared that the existing treaty was unsatisfactory to the United States, and should be modified or abrogated.

In his next letter the secretary, however, warned the ambassador that it was a grave error to assume to proceed as if the administration of Samoa was virtually and exclusively German, and expressed an anticipation that conciliatory and proper action would be enjoined upon the German consul at Apia. A little later on the ambassador in turn wound up a note to Secretary Olney by a blunt refusal to transmit his views to Berlin as requested and remarked that the secretary must issue suitable instructions to the United States ambassador at Berlin if he wished his views—diametrically opposite to a former understanding—brought to the notice of the imperial government.

Secretary Olney came promptly back at the ambassador by an equally blunt contradiction of his statement, saying: "I have been unable to find any warrant for the conclusions you advance," and then the correspondence ran on, the secretary insisting on keeping the correspondence in Washington.

### SPAIN CLAIMS BIG VICTORIES.

Insurrection Reported Almost Quelled in the Philippine Islands.

WASHINGTON, April 3.—The Spanish legation has received official dispatches from Madrid under date of April 1, announcing the most decisive engagements in the Philippine islands since the insurrection there began. The strongly entrenched towns of Novellata, Lecban and Rosario were stormed and taken by the Spanish troops. At the same time the Spanish fleet shelled the seaport town of Cavite Vago and other strategic points leading to the insurgent stronghold of Imus.

The losses were heavy, and 1,630 prisoners surrendered as a result of the shelling of Cavite Vago. The fleet in the operation included the cruisers Renarchistina, Don Juan d'Austria, Isla de Luzon, Isla de la Cuba and Maria de Molina. With these were a number of gunboats and light draught ships for manœuvring through adjacent swamps. The officials of the Spanish legation are highly gratified at the announcements, and state that the results practically close the conflict in the islands, these being the last of a series of severe engagements.

BEAUTIFUL EMBROIDERY NEWS REVIEW.

## MR. MORROW MAY MOVE

As the Result of a Spicy Trial  
In Court.

MRS. ANDERSON HAS A GRIEVANCE

she thinks she should not lease the hotel at Walnut and Robinson streets. For another year because of a little matter in Police Court recently.

The forcible detention case of Eliza J. Anderson against William Morrow was continued this morning in Squire Rose's court before a jury of six men. The trouble arose because Morrow would not vacate the premises he occupies when his lease expired. It will be remembered that Morrow was arrested for permitting gambling to be carried on at his place of business. Morrow has a lease for one year, and in it there was a clause providing that if Morrow conducted his place in a satisfactory manner he could have a lease for another year. Mrs. Anderson had this as her point for ejection. Morrow came to her a few weeks ago and offered to pay his rent, but the money was refused on the grounds that the lease had expired. Several witnesses were examined, and that there was poker playing in the house at different times it was put forward. The arguments began at 1:30 this afternoon and council for the defense moved the case be taken from the jury and be dismissed. Counsel for plaintiff strongly objected to this, and scored a point in his client's favor when he exhibited the lease which was violated several times. The case was in the hands of the jury at 3 o'clock. It later returned a verdict in favor of the plaintiff.

### DOUBLE DEALING

Is the Cause of Many Heart Burnings—An East Liverpool Case That Was Opposite.

Double dealing, like so many other expressions in the Anglo-Saxon language, has different meanings. The text or heading does not refer to the deceitful, hypocritical specimens of manhood who carry favor for their own ends and keep a community in a ferment by retailing scraps of confidences.

This time 'tis the double dealing of the little conqueror, Doan's Kidney Pills—to be more correct, the double healing. One member of a family tests them. Like disease, the infection spreads. Another tries them, an acquaintance or a friend, maybe. Result the same—a cure. Read the statement that follows, made by Mrs. Edmund Purton, of 233 Ravine Street. She says: "Both my husband and I can testify to the value of Doan's Kidney Pills. I had backache, headache and other symptoms of the complaint for two years. When the last attack came on I went to the W. & W. Pharmacy, and got a box of Doan's Kidney Pills. In a very short time I was relieved."

"My husband, who is a painter, decorator and paperhanger, of the firm of Purton & Jackson, was seized with a severe attack of kidney complaint lately. Some three years ago he contracted a fever, which left his kidneys in bad shape, and ever since he has had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills, emphasizing the facts that he had been a sufferer with kidney disease; confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks; that he used Doan's Kidney Pills, and in a day or two he was able to be up and about his business. The gentleman spoke so highly about the remedy that my husband got a box at once. They were prompt in relieving him. I felt better generally. We can heartily recommend Doan's Kidney Pills. I hear numbers of people speak well of them."

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box, six boxes for \$2.50. By mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

**MRS. ANDERSON HAS A GRIEVANCE**

She Thinks She Should Not Lease the Hotel

 Police Court Recently.

The forcible detention case of Eliza J.  
 Anderson against William Morrow was  
 continued this morning in Squire Rose's  
 court before a jury of six men. The  
 trouble arose because Morrow would not  
 vacate the premises he occupies when  
 his lease expired. It will be remem-  
 bered that Morrow was arrested for per-  
 mitting gambling to be carried on at  
 his place of business. Morrow has a  
 lease for one year, and in it there was  
 a clause providing that if Mor-  
 row conducted his place in a  
 satisfactory manner he could have a  
 lease for another year. Mrs. An-  
 derson had this as her point for ejection.  
 Morrow came to her a few weeks ago  
 and offered to pay his rent, but the  
 money was refused on the grounds that  
 the lease had expired. Several witnesses  
 were examined, and that there was  
 poker playing in the house at differ-  
 ent times it was put forward.  
 The arguments began at 1:30  
 this afternoon and council for the  
 defense moved the case  
 be taken from the jury and be dismissed.  
 Counsel for plaintiff strongly objected to  
 this, and scored a point in his client's  
 favor when he exhibited the lease which  
 was violated several times. The case  
 was in the hands of the jury at 3 o'clock.

 that he used Doan's Kidney Pills, and in  
 a day or two he was able to be up and  
 about his business. The gentleman  
 spoke so highly about the remedy that  
 my husband got a box at once. They  
 were prompt in relieving him. I felt  
 better generally. We can heartily recom-  
 mend Doan's Kidney Pills. I hear num-  
 bers of people speak well of them."

Doan's Kidney Pills are sold by all  
 dealers. Price 50 cents per box, six boxes  
 for \$2.50. By mail on receipt of price by  
 Foster-Milburn Co., Buffalo, N. Y., sole  
 agents for the United States.

 Our Working Women's Home associa-  
 tion used your Honey and Tar six years  
 ago, and are using it today. It has  
 always been a favorite, for while its  
 taste is not at all unpleasant its effects  
 are very beneficial. It has never yet  
 disappointed us. Wishing you all possi-  
 ble success, sincerely yours, Laura G.
